-  +55 61 98274-9923
-  Brasília, Brazil

A professional with great interest, curiosity, resilience, and proactivity. Willing to deal with the pain of new challenges.

## Android skills

- |                    |                   |
|--------------------|-------------------|
| Kotlin/Java        | Coroutines        |
| POO/Func           | View/data binding |
| MVVM, MVC          | Espresso/JUnit    |
| Material           | Git, Github       |
| Flow/LiveData      | Room (SQLite)     |
| Jetpack Compose    | Clean Code/Arch   |
| Retrofit (RESTful) | Hilt/Dagger       |

## Soft skills

- |               |             |
|---------------|-------------|
| Communicative | Patient     |
| Resilient     | Rational    |
| Enthusiastic  | Self-taught |
| Professor     | Adaptative  |
| Thoughtful    | Creative    |
| Focused       | Proactive   |
| Ambitious     | Motivated   |

## Another skills

- |                |              |
|----------------|--------------|
| Graphic Design | Intermediate |
| UI/UX          | Intermediate |

## Languages

- |            |          |
|------------|----------|
| Portuguese | Native   |
| English    | Advanced |

## Education

- Computer Science** 2021 - 2025  
Catholic University of Brasília (UCB)
  - I worked as a monitor of **Programming Logic** and **Structured Programming** helping students from my University.
- Skills:** Java · C · JavaScript · Git · HTML5 · Cascading Style Sheets (CSS) · MySQL · SQL · Object-Oriented Programming (OOP) · Computer Science · Programming · Algorithms · Data Structures · Model-View-Controller (MVC)

## Experience

- Android Developer** 2022 - Ongoing  
Self-employed
  - Building and publishing apps in Android App stores.
  - Always searching for learning new technologies to introduce in my Apps.
-  **MyMovies**  
A **Movie App** developed with **Kotlin + Jetpack Compose** for **Android** devices, following **Clean Code + Clean Architecture** and **Google codelabs** conventions.
  - Skills:** Kotlin · Jetpack Compose · Retrofit · Room · Coroutines · JUnit · MVVM + Clean Architecture · Dagger/Hilt · Material · Git.

## Courses

- Android Fundamentals with Compose** 2023, 300 hours  
Google Codelabs  
**Skills:** Dependency Injection · Kotlin · Android · Retrofit · Kotlin Coroutines · Google Material Design · Room · Android Development · Android Studio · Model-view-viewmodel (MVVM) · Flow · Git · Jetpack Compose
- Android Fundamentals in Kotlin** 2022, 300 hours  
Google Codelabs  
**Skills:** Espresso · Kotlin · Android · LiveData · Retrofit · Kotlin Coroutines · Android SDK · Java · Google Material Design · Room · Android Development · Android Framework · Android Studio · Model-view-viewmodel (MVVM) · MySQL · Android Jetpack · Flow · Git · Object-Oriented Programming (OOP) · SQL
- Front End Development Libraries** 2023, 300 hours  
freeCodeCamp  
**Skills:** Redux · Bootstrap · React.js · TypeScript
- JavaScript Algorithms and Data Structures** 2022, 300 hours  
freeCodeCamp  
**Skills:** JavaScript · Data Structures · Functional Programming
- Responsive Web Design** 2022, 300 hours  
freeCodeCamp  
**Skills:** HTML5 · Bootstrap · Cascading Style Sheets (CSS)
- Android Enterprise Associate** 2023, 1 hour  
Android Enterprise Academy  
**Skills:** Enterprise Mobility · Zero-touch · Android Security
